# Presenting the Zurich Inforce Policy Reprojection System

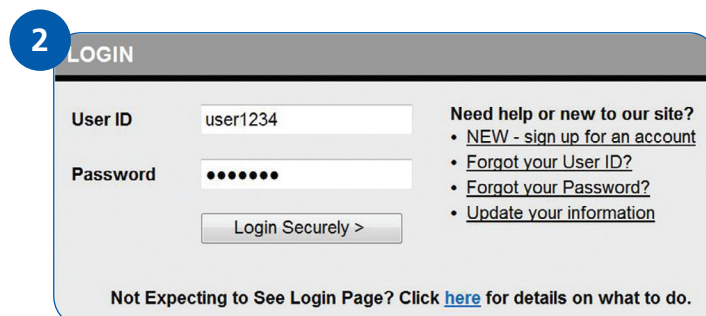

This new on-line system provides our brokerage general agencies and servicing brokers the ability on a 24/7 basis to easily run inforce reprojection illustrations on EVERY permanent life insurance product one policy year or older offered by Zurich American Life Insurance Company and Zurich American Life Insurance Company of New York.

Our robust, easy-to-use on-line inforce policy reprojection system is a principal tool that our responsible servicing brokers can use with an inforce policyowner to help keep policy's future performance in reasonable synch with the performance expectations that were established at the time the policy was originally purchased. We would like to share some basics with you. Be sure to watch our media presentation that will give you a detailed walk through of the system. Go to the *Reprojections* tab on the Zurich Producer site at [www.zlifeusa.com](http://www.zlifeusa.com)

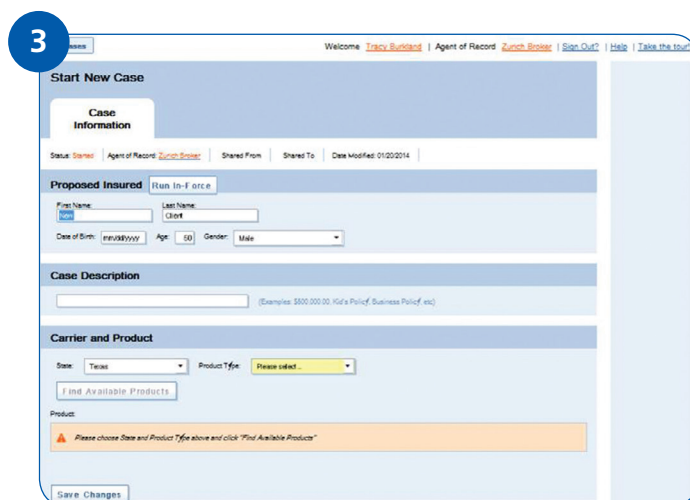

## Where Can I Access the System?

- Go to [www.zlifeusa.com](http://www.zlifeusa.com), and click the “i-Illustrate” button located in the bottom right section of the page.

- Use your current iPipeline login information.
- Don't have an iPipeline login? Register for one by clicking “NEW - sign up for an account.”
- Once you have logged into the iPipeline illustration system, click on *Start New Case*.

- On the “Case Information” tab, click *Run In Force*.
